Nanorestart final Conference National Museum of Denmark 29th and 30th November 2018

Tuesday, October 2, 2018 - 13:19

Within the EU Horizon 2020
NANORESTART research project, new
materials and treatment methods based
on nanotechnology have been
developed and tested. NANORESTART
systems may provide several
advantages over conventional products,
particularly in terms of flexibility
[application to different types of
substrates], performance, efficiency,
retreatability, selectivity and sensitivity of
conservation treatments.

Five product families and fifteen key Product Solutions have been selected as cleaning systems for cultural heritage, surface consolidation of fibrous materials, coatings to protect metal and plastics surfaces, and sensing and diagnostic systems for degradation products.

The final conference of the project will be open to the public and it will take place at the National Museum of Denmark, on the 29th and 30th of November 2018. The final conference has been selected as one of the initiatives to celebrate the European Year of Cultural Heritage. [Please download the program of the conference.](#)

Participants should pay a conference fee to the National Museum of Denmark of 100 Euros [750 DKK, 90 BP], which includes coffee breaks and lunches.

The bank account to transfer the conference fee to is: Danske Bank
Holmens Kanal 2-12 DK-1092
Copenhagen K Reg. nr. 0216 Account nr.
4069073395 Iban nr.
DK1602164069073395 Swift/Bic nr.
DABADKKK
